# WRAPAROUND

Wraparound is a planning process that follows a series of steps to help children and their families realize their hopes and dreams. The process will help to make sure children and youth grow up in their homes and communities. With the help of the wraparound coordinator, the Child and Family Team (people from the family's life) work together, coordinate their activities, and blend their perspectives of the family's situation — to achieve a common goal.

## Mission Statement

The wraparound approach will be:

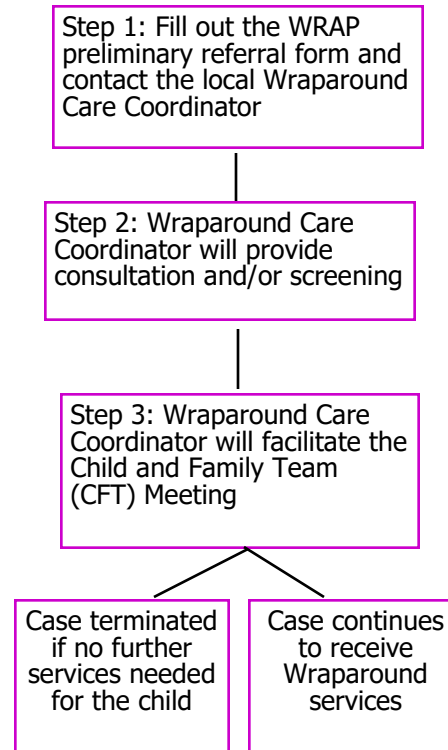

- Driven by families and youth
- Culturally and linguistically responsive
- Grounded in the strengths perspective
- Guided by outcomes and accountability
- Collaborative
- Community Based

Each Child & Family Team (CFT) meeting must include the following facilitation components:

- A family member or youth must be present for the meeting to occur
- Wraparound team meetings are held at times and locations to ensure meaningful participation by family members, youth and natural supports

## Referral Process

Any party, including families and community partners may make a referral to Wraparound. Referrals will be reviewed by a committee for eligibility. Non-eligible referrals will be referred for more appropriate services

## Child and Family Team

The goal of the CFT is to develop a family guided, youth driven, strengths based plan that will maximize the child's and family's ability to maintain the child in their home community. The CFT is comprised of the individual's family and community partners. The team is responsible for creating, implementing, reviewing, and revising a Wraparound Plan of Care.

A team may consist of:

- Parents/Caregiver
- Church/Family Friends/Natural Supports
- School
- Primary Care Professionals
- Child Welfare
- Law Enforcement
- Juvenile Justice
- Treatment Facility

**The Wraparound Plan of Care** will include the following elements:

- Family vision
- Team mission
- Strengths
- Needs
- Outcomes
- Strategies
- Interventions
- Action Steps
